1	The system must provide downloadable Word/DOCX forms that users can edit and re-upload.
2	The system must provide clearly labeled, downloadable Word/DOCX forms that users can edit, re-upload, and access for all required documents when applicable.
3	Replace the value “None” with “General” for the admin role and change the field label “ID” to “Employee ID.” AND ID TO STUDENT ID
4	Organization fees must be visible to students before joining.
5	A Membership Overview section must be included, allowing students to view the organization and request to join.
6	Membership requests shall remain pending until approved and the required organization fee is fully paid. (MOBILE APPLICATION)
7	Announcements posted by Presidents must only require Moderator approval.
8	Super Admin shall only have the ability to view, edit, or archive announcements, not approve them.
9	Event expense submissions must be approved solely by the Moderator.
10	Accreditation announcements must be automatically approved without requiring multiple approval indicators.
11	During organization application, the system must require Mission, Vision, Objectives/Goals, and Advocacy details.
12	Accreditation file uploads must accept PDF files only.
13	The accreditation review page must include action buttons (ACCEPT / ACCEPTED) at the bottom after viewing the submitted documents.
14	The moderator/coordinator must be assigned during the accreditation creation process, and only one moderator should be allowed.
15	The accreditation form must clearly indicate the required organization fee amount upon application.
16	After approval by the Special Admin, a Recommendation Letter upload option must be enabled, and once recommended, the Super Admin shall approve the accreditation directly.
17	Upon final approval, the system must generate a downloadable certification with e-signature, which shall be handled by the Student Development Coordinator, including printable and digitally signed certificates.
18	The “Add Accreditation” modal should support a table-based layout with corresponding file attachment fields.
19	The system must specify clear prompts and instructions for each input field in the accreditation form.
20	In the New Accreditation module, replace the role label “Admin” with “Coordinator.”
21	The faculty member who creates an organization shall automatically be assigned as the Organization Admin/Coordinator and cannot withdraw this role once the acceptance letter has been submitted.
22	Only Admins are allowed to create and add new organizations. The Student Development Coordinator shall not create organizations.
23	In the New Accreditation , replace the role label “Admin” with “Coordinator”.
24	In the Announcements module, a Category field must be available with options such as Program-related, specific to members of the organization, and optional/general.
25	Upon clicking the approval button, a confirmation prompt must appear stating: “Approved. Are you sure you want to recommend this organization?”
26	Students should not directly join organizations . Instead, during accreditation, the coordinator sets the student leaders (President, Vice President, etc.).

27	Once student leaders are assigned during accreditation, their accounts are automatically created and assigned based on their roles.
28	The existing UI draft should be enhanced by using bolder and more visible color schemes to improve user clarity and feedback.
29	In the Student Account Activation modal, action buttons must use appropriate color indicators , such as red for the Reject action and visually appropriate colors for other actions .
30	The Accomplishment Report and the Liquidation Report must be submitted in soft copy, both in PDF format, after the conduct of the event. These documents serve as the official basis for verifying the expenses incurred during the activity.
31	The Accomplishment Report should clearly indicate the event conducted, its objectives, activities, and outcomes. This explains why the expenses were incurred and how they are related to the event
32	The Liquidation Report should follow the official USTP format. It must reflect the Proposed vs. Actual expenses. If the event has not yet been conducted, only the “Proposed” column should be filled out, and the “Actual” column should remain blank until completion.
33	The expenses listed in the Liquidation Report must match and be supported by the details stated in the Accomplishment Report. These two documents should be consistent and aligned.
34	All financial transactions, including deposits and withdrawals, must be recorded in the Treasurer’s Log or Passbook Log. Each entry should include the date, amount withdrawn or deposited, and the purpose of the transaction.
35	The Treasurer’s Log should be accessible for administrative review to ensure transparency and proper tracking of funds.
36	Compliance will be considered incomplete if either the Accomplishment Report or the PDF Liquidation Report for the event is missing.
